Perennial Global Property Securities Fund

a sub-fund of

Perennial Investment Partners Investment Funds plc, an umbrella fund with segregated liability between sub-funds

Euro Class A Shares

GBP Sterling Class B Shares

SEDOL code: B2N7GR0

Objectives and Investment Policy

- Perennial Global Property Securities Fund (the **Fund**) aims to grow the value of your investment over the long term through a combination of capital growth and income by investing in a broad selection of the best international property securities.
- The Fund aims to provide a total return (after fees) that exceeds the FTSE EPRA/NAREIT Developed Total Return Index in GBP (the **Index**) measured over a rolling three-year period.
- The Fund will invest in listed, or soon to be listed, Real Estate Investment Trusts (**REITs**) and any other property related companies listed on any recognised global stock exchange, which the Investment Manager believes can offer superior capital growth and income characteristics.
- The Fund is able to invest a maximum of 20% of the net asset value in securities not included in the Index. This means the Fund has the capacity to invest in good quality companies that are not represented in the Index and ensures that the Fund is suitably diversified.
- The Fund does not attempt to replicate the Index.
- The Fund may invest up to 100% of its assets in REITs. As the Fund grows, the Fund will typically be expected to hold between 40 and 50 securities, with a minimum of 25 and a maximum of 75.
- The Fund will attempt to be fully invested at all times but may invest in cash or other ancillary liquid assets, subject to such assets not exceeding 10% of the net asset value for any material length of time.
- The Fund will not invest in REITs where such investment would impact on the liquidity of the Fund.
- The Fund may not invest more than 10% of the net asset value in other collective investment schemes.
- You can buy and sell your shares on each business day of the Fund.
- The following minimum investment amounts may apply for the Fund:
 - Class A Shares: €50,000
 - Class B Shares: €50,000 or pound sterling equivalent.
- The Fund has been approved by HM Revenue and Customs as a 'reporting fund' for UK taxation purposes which means that for each accounting period during which a shareholder has held his interest in the Fund, any gain arising to the shareholder will be calculated and taxed as a capital gain, rather than as an offshore income gain, and such shareholder may be eligible for applicable capital gains exemptions and/or reliefs.

Risk and Reward Profile

- This indicator is based on historical data and may not be a reliable indicator of the future risk profile of the fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.
- The risk indicator for this Fund is set at 6 (high) reflecting the typically more volatile nature of a fund investing in securities of companies as these price movements tend to be more volatile than bonds or other fixed income securities.

Other particular risks include:

- a fall in the profit performance of a company which the Fund is invested in may affect the Fund's value

- changes in exchange rates may cause the Fund's value to increase or decrease
- local economic and political conditions may have an impact on returns as real estate investments tend to be impacted by such conditions
- the Fund is reliant on the Investment Manager and there is the risk that the Fund will not achieve its investment objective and may underperform the benchmark or may underperform other investment managers.
- As the Fund has been in existence for less than 5 years (see Past Performance section) the displayed risk indicator has been calculated using simulated historical data and the FTSE EPRA/NAREIT Developed Net TRI in GBP.

For more information on risks, please see the section entitled 'Risk Factors' in the prospectus, available from www.perennial.net.au.

Past Performance

Perennial Global Property Securities Fund historical calendar year performance.

Past performance is not a guide to future performance. The value of your investment and income from it may go down as well as up and you may not get back the amount you invested.

The chart shows the Fund's annual performance in GBP for each calendar year since inception in February 2008. It is expressed as a percentage of the Fund's net asset value for the relevant period. The base currency of the Fund is the Euro.

Performance is shown after the deduction of all fees and assumes any dividends/distributions have been reinvested.
